DETAILED ACTION

The drawings are objected to because drawing figure 7B is missing. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance. In applicant's remarks filed on 1-12-2004, it was indicated a proposed drawing figure 7B was submitted therewith. However, no such figure has been found in the application.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 43 is rejected under 35 U.S.C. 102(b) as being anticipated by Spain et al(5,203,941). The patent to Spain et al teaches a vinyl siding product bearing an image pattern applied thereon with an ink as claimed. Claim 43 is a product by process claim which is not limited to the manipulations of the recited steps, only the structure implied by the steps. See MPEP 2113. Accordingly, it is believed that the structure of the claimed vinyl siding product in claim 43 is fully met by the vinyl siding product of Spain et al.

Claims 1-11, 14-24, 26-33 and 36-42, 44 and 45 are allowed.
